Practice Profile

Urban Savannah Design studio (USDS) is a young budding Nairobi-based design studio providing a full range of architectural and urban design services. Ongoing projects include an Aircraft facility in Tanzania, a design competition for the new Swiss Chambers in Rosslyn-Nairobi, a tapeyaki restaurant on Kwale island-Zanzibar, a winery in Naivasha and a gated residential development in Karen-Nairobi.

USDS aims to achieve excellence in design through creative dialogue with our clients, consultant teams, contractors and end users. Architectural innovation is cultivated in the office through research into materials, construction techniques and the cultural context of each project.

"SUBIRA HUVUTA HERI"

All good things come to those who wait
Swahili proverb

RIBA 

Chartered Practice

Aviation Hangar

Concept design for aircraft hangar for an international helicopter leasing company based in Easter Africa.

Forest View House

A modern four bedroom residence located on a steep sloping site
bordering the Getathuru River in Spring Valley.

Swiss Embassy

An international design competition for the new Swiss Embassy, Nairobi.

Silole Estate

Concept design and project management for an ongoing mixed use up market development in Karen.

Mazingira Park

A park that follows the flow of the Nairobi River from City boundary to City boundary.

Jakes house

Refurbishment and expansion of a late 1970's house.

River Trees

Located on a 10 acre plot off Mbagathi Ridge in the heart of Karen.

Leleshwa Winery

East Africa's first fully fledged Winery facility located in Naivasha off the Nairobi-Nakuru Highway.
